

Some adults will begin receiving Medicaid benefits through the Kentucky HEALTH program.

Introduction to Kentucky HEALTH

Objective

- Kentucky HEALTH is the Commonwealth's new health and well-being program for some adults and their families. Some people will **receive their Medicaid benefits through Kentucky HEALTH**. HEALTH stands for “**Helping to Engage and Achieve Long-Term Health.**”
- Kentucky HEALTH offers each recipient the ability to **customize a path based on individual needs** that will lead to better health, engagement in their communities, improved employability, and success through long-term independence.

Requirements

- PATH Community Engagement is one part of the Kentucky HEALTH program. Some recipients of Kentucky HEALTH will need to complete and report **80 hours each month of approved PATH Community Engagement activities** to keep their Medicaid benefits.
- PATH Community Engagement activities could include **looking for a job, participating in training, enrolling in classes, volunteering in the community, or caregiving.**

Resources

- Kentucky HEALTH is partnering with **Local Workforce Development Boards, Kentucky Career Centers, and Adult Education** to help connect people to education opportunities, gain practical skills, find jobs, and meet the PATH Community Engagement component of Kentucky HEALTH.

Each Kentucky HEALTH recipient will have a different set of requirements, depending their Category of Eligibility. For more information about Categories of Eligibility, visit KentuckyHEALTH.ky.gov
